FAQs:

Will my dog be boarding on its own?
Yes, all of the dogs that stay in our kennels have their own accommodation. If you have two dogs from the same family we are more than happy to place them in shared accommodation.

Is there a check out time?
Yes. Our check out time is before 6 pm to avoid charges for that day.

Do you administer dog or cat medications?
Yes. We will administer any medications for your pet at no extra charge

What is on the menu for dogs in our care?
All diets are catered for your pet and all of our pet guests receive a nutrional diet. For dogs, that means top quality fresh meat and crunchy dog biscuits, all provided in the kennels by us

Does my dog need to be vaccinated to stay?
Yes. No vaccination card, no stay. For the protection of all animals a current vaccination card must be produced. These vaccinations are fairly inexpensive and we prefer if you have it done 14 days prior to entry
