a. Dogs training

1- Basic Obedience

2- Advanced Obedience

3- In Home Training

- Many dog owners encounter problems specific to the home such as housebreaking, barking, jumping, running away, pulling on the leash and anxiety
- a few of the many problems that can be addressed with in-home training
- Our well educated and expert trainers can advice and help you your dog to overcome the problem through home advisory visits.
- We can also design training plan for your new home dog according to the age breed sex and the skills you wish for your dog.

b. Pets Behavior Therapy

Does your dog jump up, pull on the lead, chew, bark, howl, run away, chase, dig, eat the grass and guard its food or soil in the house?

We offer you:

1- Home consultation:

- Before the consultation we require that you fill a consultation questionnaire **[Link]**
- 1 – 3 home visits (1-2 hours per visit) will be implemented to explore the cause of the problem through observation and conversation with the owner
- The diagnosis of the problem supported by practical and effective treatment plan will be outlined.
- Training sessions on special exercises and techniques could be conducted if needed
- Ongoing telephone and email support are available if necessary to ensure the efficiency of the therapy
- Correspondence with your vet is also available if needed

2- Online dog /cat consultation

Aggression, separation disorders, destructions, excessive barking, control problems, fears and phobias can all be significantly improved with the correct advice and behavior therapy plan

- You will be asked to fill a questionnaire **[Link]**, please answer the questionnaire as fully and honestly as possible and return to us.
- If it is possible to email us a Short clips of video footage with your questionnaire that would be very useful.
- We will then send you a comprehensive behavior therapy plan in an email report.
- Please note that online consultations are not a substitute for a home visit
- Please do not hesitate to contact me if you would like to discuss your dog's problem before deciding which route to take.

3- Telephone consultation

- A convenient time table of phone calls will be arranged between us.
- The consultation usually takes approx 10- 30 minutes per call
- The number of calls required will depend on the action plan formulated
- You will also receive a written report of the consultation

4- Puppy Consultations

A new puppy with you is exciting and fun but can also give you a hard time! We can help you to:

- choose the right puppy for you
- Then prepare things right before the puppy arrive (which is a lot easier than trying to sort out problems later on)
- That will lead to a friendly, well-behaved and happy adult dog.
